

Cancer Risks In DeQuincy...

**YOUR
Toothpaste,
Shampoo
& Other
Bathroom Products
MUST Be Checked!**

**Is There An Ingredient
In YOUR Bathroom**
(Toothpaste, Shampoo and Other Products)
Called 'Sodium Lauryl Sulphate' (SLS)..?

**100% FREE FOR
DEQUINCY RESIDENTS ONLY**

You need to know the risk of exposure to you and your family.

The Manufactures *Material Safety Data Sheet* says it is "hazardous" and has the following guidelines for handling SLS in industry:

- Protective Gloves: NEOPRENE, PVC OR EQUIVALENT GLOVES.
- Eye Protection: ANSI APPROVED CHEMICAL WORKERS GOGGLES

IN FACT: 884 chemicals used in personal care and cosmetic products have been reported to the government as **toxic substances!**

Because you are a DeQuincy resident, Teddy can send you:

- FREE: Ingredient checklist (check all of your products in the bathroom for potential risk factors)
- FREE: 45 minute shocking CD interview with Dr Samuel Epstein, author of The Safe Shoppers Bible
- FREE: How to find safe and effective alternatives at good prices
- FREE: 7 Bathroom Challenges that expose the real dangers

BATHROOM CHALLENGE 1:
Check the cardboard box
that your toothpaste comes
in for it's **WARNING** label.

*(If you've never read it
before, prepare to be SHOCKED!)*

"Lifelong use of these products clearly poses major avoidable cancer risks to the great majority of U.S. consumers."
Samuel Epstein, MD, author of The Safe Shoppers Bible.
